

Ready for your automation applications

The new generation of industrial PC

Magelis Box PC, Magelis Panel PC and Magelis iDisplay

Vijeo Citect

Intelligent Data Service

Vijeo Designer

Schneider
Electric

Certified for automation

Magelis™ IPC are built specifically for automation with certifications for industrial control, hazardous locations, and marine applications.

Easy IT integration

Run Microsoft® operating systems with large data storage, multi-tasking capabilities, and double gigabit Ethernet port to separate information flows.

Choice of design

Optimum, modular or made-on-demand, choose your design, suitable to your needs!

New generation of industrial PC

Certified for automation

The new generation of Magelis iPC has certifications for use in the most demanding automation systems, including industrial control equipments, hazardous locations, and marine applications.

The new range is extremely rugged, with maintenance-free models (no fan, static storage SLC technology), and LED backlight for Panel PC. Their resistance to extended temperature ranges, shock, and vibrations ensures uninterrupted operation in the toughest of environments.

For easy maintenance, both the fan and the hard disk are monitored. Additional options for critical applications are also available (HDD RAID PCI card and battery back-up). The Box PC book format and 24 VDC power supply make it easy to install in the confined space of a control cabinet.

With long range durability, Magelis iPC will be a reliable foundation of your automation platform for years to come.

Easy IT integration

The Magelis Box PC runs Microsoft operating systems to connect any PC peripherals, and features large data storage, ease of connection to other computers and databases, and multi-tasking capabilities (Vijeo™ Designer HMI, IDS data traceability or Vijeo Citect SCADA, office software including web browsers and other programs installed by the user).

A large choice of compatible Microsoft operating systems is available, from Windows® Embedded write-protected in operation, to Windows 7 64-bit, supporting large RAM for demanding SCADA applications.

To boost system security, Magelis iPC separate the IT and automation data flows with their two built-in gigabit Ethernet ports.

Choice of design

You can choose between various configurations offering different levels of performance, all based on the latest components:

- > **optimized design**, with affordable and maintenance-free Panel PC,
- > **modular design**, with a complete range of Box PC and Panel PC, including high performance options.

In addition to the predefined products from the catalogue, the new Magelis range offers industrial PC made to your specific order, with over 1,5 million of possible configurations.

> Optimized design

Magelis Panel PC Optimum are affordable and certified for automation without compromising quality.

Panel PC

- Touch screen 10" or 15" 16 million colours, IP65, LED backlight.
- CPU Intel Atom Z510 1,1Ghz fanless, 1Gb RAM.
- 2 gigabit Ethernet, 1 RS 232, 2 USB + 1 front.
- Compact Flash (SLC technology), 1 SD card slot.

Windows Embedded Standard.

> Modular design

Magelis iPC Universal and Performance are based on a modular design to fit all application needs:

- Universal models with Intel® Atom™ N270 processor without fan (1.6 GHz)
- Performance models with Intel® Core™ 2 Duo processor (2.26 GHz) and DDR 3 RAM

Panel PC

- Touch screen 15" or 19" 16 million colours, IP65, LED backlight.
- 0 or 2 PCI /PCIe slots, removable drives.
- 2 gigabit Ethernet, 4 USB + front, 1 DVI, up to 3 serial lines.

Windows Embedded Standard, XP Pro or Windows 7.

Configured iPC service

Contact our customer care centre to build your own Magelis iPC configuration and get unique options (8 Gb RAM, large Compact Flash, WES 7, software bundles, battery back-up interface, 3rd serial line, etc.).

Box PC

- 2 gigabit Ethernet, 4 USB + front, up to 2 DVI and 3 serial lines.
- 1 to 5 PCI/PCIe slots.
- Removable drives: Compact Flash (SLC), Flash Disk (SSD SLC) or HDD and DVD-RW.

Windows Embedded Standard, XP Pro or Windows 7.

> Magelis iPC Select your configuration

For more options, contact our customer care centre for iPC configured service.
